1. PURPOSE AND SCOPE

This policy governs the awarding of the Foundation for Surgery Richard Jepson Research Scholarship. It covers the application and selection criteria as well as the duration, value, frequency and conditions of the Scholarship.

2. KEYWORDS

Jepson, scholarship, research

3. BODY OF POLICY

3.1. Background

The late Professor Richard P Jepson was the foundation Chair for Surgery at the University of Adelaide. This Scholarship has been established in his honour due to a generous donation from his wife, Dr Mary Jepson, in order to assist needy and deserving younger researchers. Professor Jepson was a “strong believer that youth needs support and opportunity”.

3.2. Eligibility Criteria

Applications for the Scholarship are open to SET Trainees in Australia or New Zealand. Candidates must be enrolled in or intending to enroll in a higher degree. Preference will be given to applicants relatively early in their careers and to South Australian residents.

Applicants to surgical training are also eligible to apply for a scholarship in anticipation of their acceptance into the SET program. They must be accepted into the SET program by 1 August in the year prior to the commencement of the scholarship in order to take up the award.

All scholarships, fellowships and grants are conditional upon the applicant being a permanent resident or citizen of Australia or New Zealand, or an international medical graduate accepted into the College as a Trainee.

Applicants are eligible for a maximum of four years of RACS Research scholarship funding. This can be made up of multiple College research scholarships and does not have to be taken consecutively.

3.3. Selection Criteria

The scholarship recipient will be chosen on the basis of his/her written application, Curriculum Vitae, supporting references and subsequent interview.

Research scholarship applicants will be short-listed for interview based upon the candidate’s academic record, postgraduate training, research experience, publication history, the experience of the supervisor and reputation of the institution where the research is to be undertaken. These criteria will be assessed from information provided in the application, supporting references and accompanying Curriculum Vitae.

Short-listed applicants will be interviewed by a panel comprised of the Chair of the Board of Surgical Research and two other Board members and selection will be made with the approval of the incumbent by the R P Jepson Professor, Discipline of Surgery, University of Adelaide at the Queen Elizabeth Hospital. Assessment will be based upon the candidate’s understanding of the research project as evidenced by their explanation of the project and ability to address questions from the panel. The candidate will also be assessed on their initiative in attempting to source other funding.
3.4. Value of the Scholarship
The scholarship consists of a stipend plus departmental maintenance. Prospective applicants should refer to the College website at www.surgeons.org for information on the current value of the scholarship.

3.5. Duration of the Scholarship
The scholarship can be awarded for a maximum of three and a half years. Continuation each year is dependent on satisfactory progress as well as evidence of application to other funding sources.

3.6. Frequency of the Scholarship
The scholarship will be awarded on the basis of available funds and providing there is at least one worthy applicant.

3.7. Conditions of the Scholarship
3.7.1. Research Program
The following conditions are based on information supplied at the point of application on which scholars’ applications were assessed and approved. Any changes from those originally approved by the College will require the College’s prior consent. To obtain this consent, scholars are required to complete an Amendment Form available from the College.

a) Scholars must be enrolled in a higher degree as approved by the College for the duration of their award.

b) Scholars must undertake the research program as approved by the College for the award.

c) The completion of Referee Form Two, Section A of the Application Form by the proposed supervisor is considered certification that he/she is willing to accept the role of supervisor of the named research study.

d) Trainees must confirm the support of their Training Board in writing.

e) Preference will be given to scholars who will undertake the research study at an approved institute in Australia or New Zealand. However, consideration will be given to scholars who wish to undertake all or a proportion of their research in an overseas institution. In these cases scholars must submit a strong justification in their application and supply the names of two supervisors. One intended supervisor of their research must be situated in an approved institute in Australia or New Zealand. Written approval from the intended Head of Department where the research is planned to be conducted overseas is also required.

3.7.2. Financial Arrangements
In Australia and New Zealand scholars may engage in professional work for additional remuneration for up to an average of 10% of each working week, provided that:
a) The work carried out under this entitlement is related to the broad area of his/her research activities.

b) The additional work is undertaken with the permission of the scholar’s supervisor and employing institution. Clinical sessional work, teaching and consulting are all categories of work for which permission could be sought.

It is recommended that the scholar refers to his/her financial or taxation advisor to ascertain the taxability of the award. General information about whether scholarships/fellowships are exempt from income tax is available on the College website. Please go to www.surgeons.org/scholarships/ and proceed to the FAQ section.

The scholarship will be paid to an Administering Institution on behalf of the scholar. Payment of the annual value of the award will be made in one instalment prior to 1 March in the given year. The control of the expenditure will be governed by the normal policies and procedures of the Administering Institution.

Award funds will only be paid on receipt of a valid tax invoice provided by the Administering Institution. Payment will only be made if the requirements outlined in points 3.7.4 and 3.7.11 of these conditions are satisfied.

Where applicable, scholars are required to procure 25% of the value of their award from their research department (of both stipend and departmental maintenance). This condition will be waived if the scholar receives additional research funding to the value of, or greater than, 25% of the value of their award. (Additional funding would have to include a salary component to offset the research department’s responsibility for paying 25% of the scholar’s stipend).

3.7.3. Additional Scholarships/Fellowships/Awards

a) A College scholar may hold additional awards simultaneously with the College award being adjusted to cover the short fall between the College award and the additional award.

b) Scholars must notify the College immediately on receipt of an award other than the College award.

c) Scholars may not hold two College awards simultaneously.

d) In the event that an additional award is received, any overpayment of the eligible College award, given the adjustment, will be reimbursed by the scholar.

3.7.4. Reporting requirements

a) The payment of the award is conditional upon the recipient providing the College with two reports, in the requested format, on the research undertaken. These will be requested in June for submission by a specified date in July, and the second report of publishable quality will be requested during December for submission by a specified date in January. If the above mentioned
reports are not received the recipient will be ineligible for any further financial assistance from the College and may be required, at the discretion of the College, to refund the award. Copies of the reports will be forwarded to Dr Mary Jepson.

b) If these reports are not received, the recipient will be ineligible for any further financial assistance from the College and may be required, at the discretion of the College, to reimburse the College for the award paid.

c) Scholars should submit the results of their research to a peer reviewed journal eg. ANZ Journal of Surgery or other as applicable.

d) Scholars are required to present their research for presentation at the annual meeting of the Surgical Research Society of Australasia, at least once, during the scholarship period or within 12 months after the end of the scholarship period.

e) Scholars must prepare and publish an article in Surgical News on the completion of their award.

f) Scholars are required to complete two Scholarship Evaluation Surveys. The first will be requested upon completion of the award. The second will be requested five years after completion of the award.

3.7.5. Timing of Scholarship

The commencement date for the award is 1 February each year.

3.7.6. Part Time Research

Foundation for Surgery Scholarships and Surgeon Scientist Scholarships are available on a part-time basis. Part-time is defined as half the usual research hours worked by a research scholar. Part–time scholarships are restricted to scholarship recipients wishing to undertake research only. Scholarships will not be offered on this basis for scholars to concurrently undertake research and clinical loads. Refer to the Part-time Research Scholarships policy for further details.

3.7.7. Renewal of the Scholarship

This award is renewable for up to 3 ½ years. Continuation each year is subject to satisfactory progress as determined by the Board of Surgical Research. Where applicable, the College will only finance up to three and a half years of a PhD. Scholars who have completed a portion of their higher degree prior to receiving the award may be funded for the remainder of their higher degree program. Scholars who seek support beyond one year are encouraged to apply for similar scholarships awarded by external bodies.

3.7.8. Ethics Approval

The College must receive documentary evidence where applicable of ethical approval from the Ethics Committee of the Institution concerned to approve that the project conforms to the general principles set out in the NH&MRC.
Acknowledgements

The RACS Foundation for Surgery is to be acknowledged in any relevant correspondence, public announcement, advertising, publication or other material relating to the award. The Foundation logo must be included in all presentations relating to the award, including those made at the ASC.

Recipients are required to speak at Foundation dinners when invited.

Publications and Patents

The College must be notified of any publications as soon as practicable after acceptance by the journal, or patents arising from the award together with the results of any research that is to be commercially developed.

Termination of the Scholarship

The College may, at its discretion, for what is considered grave cause, suspend the tenure of an award for such time as is thought fit, or deprive a scholar of his/her Award. From the date of either of these decisions, the entitlement to stipend and other allowances shall cease.

Acceptance of Offer

Scholars must sign the Acceptance Form as acknowledgement of the above conditions and approved research and return it to the College prior to commencement of the award.

Access

This policy may be accessed by the general public, College and staff.

Communication

Grant recipients will be notified of the policy or any changes to the policy that impact them by email. Other stakeholders are encouraged to check the College website on a regular basis to keep up to date with policy changes.

Administering Committee

The Board of Surgical Research administers the Scholarship.
